### Business Membership

Businesses and professional persons can also support Friends of Boggs Mountain. Business members receive a free advertisement posted in a prominent location on the main kiosk at the forest.

More than 10,000 visitors enjoy the forest's 22-plus miles of trails each year. At least three-quarters of these visitors reside in Lake County and the Bay Area. A 1.3 mile interpretive trail loop is especially popular, along with scheduled activities including guided hikes, outdoor summer talks, mountain bike races, and orienteering meets.

## *Welcome to* **Boggs Mountain State Demonstration Forest**

There is a continued increase in the use of the roads and trails that we enjoy for recreation here. It is important that we all minimize our impact on the forest. All visitors should be aware of others and practice “treading lightly,” which will help reduce conflicts and environmental damage, making everyone’s experience more enjoyable. Multi-use etiquette promotes an equal regard for all, recognizing with respect the specific needs of each user group.

### **Multi-Use Etiquette**

- Maximum vehicle speed limit on all forest roads is 15 miles per hour.
- Motor vehicles stay on marked roads only.
- Vehicles yield to pedestrians and equestrians.
- Pedestrians and bicyclists yield to horses and should make their presence known in advance, so as not to startle the horse.
- Should your approach cause a horse to startle, be considerate, stop, and wait for the rider to tell you that it is okay to pass.
- Bicyclists yield to hikers.
- All trail users please stay on marked trails and do not cut corners or create new trails.
- Dogs: State leash laws are applied within State Forest Boundaries.
- Excessive sliding should always be avoided to preserve trails.
- No trail maintenance, pruning or trail modifications without prior approval of the Forest Manager.
- Take everything that you brought in with you out when you leave, nothing more.
- Try to keep a six-foot buffer zone when passing a horse.
- All horses should be kept under control and may not be left unattended.
- Horses should not be tethered to trees, shrubs, or other structures.
- Do not clean your horse trailer in the parking area.
- Step off the trail when possible if your horse relieves itself or kick the droppings off the trail.
